Mobile Number	{value_mobile_number}
Email	{value_email}

Web templates bring you publicity and customs, but how to stop users from removing your logos and hyperlinks? Ewisoft Template Builder converts your HTML file to an unmodified one. It can be used with Ewisoft Web Builder, a Free WYSIWYG Html Editor. It supports images and style files also. If you are designing web for custom, you can use Ewisoft Template Builder to make the web site custom-maintainable easily.
