ExtraBackup

Address   {value_address}
Contact Person   {value_contact_person}
Mobile Number   {value_mobile_number}
Email   {value_email}

Automatically copy essential documents and other important files and folders to a reserve location on the same drive, another drive, or across the network. You set up Tasks that describe the source, destination, and the backup schedule. ExtraBackup monitors the source files for changes or additions and then automatically copies the new or changed files to their designated destinations.
