Feedback mailer

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Feedback mailer gets feedback from a form and sends it directly to the mailbox specified, with proper formatting. It is a little script that gets the subjectwise distinguished feedbacks directly to your mailbox so that they reach you instantly! Features include sender's IP logging, email validation and distinguished formatting based on subject of the feedback. UPDATE: installation made easier on v1.2
