FlexBook

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

A flexible guestbook script that uses a user-defined template to guide how entries are added, giving you total control over the look and feel of the guestbook page. Includes a basic language censor (if wanted), IP address banning (if needed), variable success page, top or bottom entry additions, and more!
