FTP Commander

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

The no-frills FTP Commander offers an interface consisting of two side-by-side panels representing the local computer and the FTP server. The latter contains a list of about a dozen preset FTP servers. To establish a connection, select the server you want on the list and push the Connect button. And what's more, the program is absolutely free and does not contain any annoying ad banners.
