

GPS.NET Visualization Tools

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Visualize GPS information such as satellite location, signal strength, bearing and direction to destination with this lightweight, flicker-free .NET user control. Includes properties to allow the control to blend with any user interface, including support for transparency. Requires GPS.NET Global Positioning SDK.
