Is Having an opinion of your visitors very important for you and your business? However, most of the widgets that require MYSQL, SQLite, or other to store your data and it makes it difficult for you to understand. Our Widget lets you get feedback from your visitors using a CSV file storage. CSV files are compatible with any PHP server and you can modify the comments in the protected Control Panel. This widget uses Ajax technology which reduces spam as the unwanted robots will not be able to see the form.
