Horizontal Gridfolio Pro is a fully responsive media grid plugin that allows you to display media content with an unique and original layout. It's perfect for presentations, for anyone that want to obtain a great impact on their visitors. Horizontal Gridfolio Pro features a large variety of options, it can have any number of categories and each category can have any number of images. When a thumbnail is pressed you can choose either to display an original media lightbox which we have coded, no action or open a webpage. The lightbox can display images, iframe (html pages) and videos loaded from YouTube or Vimeo. Horizontal Gridfolio Pro is mobile optimized running great on iOS (iPad, iPhone), Android and Windows8 mobile devices and of course it works on every modern browser and older browsers like IE7 and IE8.
