HTML5 QuickSign plugin

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

You no longer have to pay for third party services to create signable documents or pages. Now saves to your server Unlimited Signing Elements. Customize background image, pentype and pen color. Small footprint at 3KB minified. Simple – just add the script and 2 divs. Compatible with most non mobile browsers.(firefox, IE9 , Crome, Opera, Safari) - No Mobile browser support at this time due to IOS security issue and android canvas bugs and Saves the form as a png screenshot to your server.
