<b>Email</b>	{value_email}

Details Using "CMS - Pages & Static Block Import/Export" extension you can export and import bulk CMS Pages & Static Blocks from one server to another via CSV Files. This enables us to import bulk CMS pages / Static Blocks with a single csv file while changing the server Features: Import/Export CMS pages and static blocks You can choose the import behaviour in import section (Either Append or Replace) Extension Usage You can find the options in magento admin under CMS ->Pages/Static Blocks Export and Import buttons are there. You can run the export to get a csv of CMS Pages/Blocks already in your site and then you can upload this file in the upload section and it will import it back in. Note the following fields in the CSV
