Junies Visitors Information Alert

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This is a Perl script for displaying information about the current visitor on your webpage. It can be used on your shopping cart's Check-Out page or your "Members Only Area". This script will cut down on illegal attempts to your "Members Area" and false and/or illegal information in your Order forms, because they will believe you are recording their information. As the saying goes..."Seeing is Believing" so make them see it. Requires SSI access.

For more details, please visit https://scripts.goclixy.com/junies-visitors-information-alert-26192
