Keyword Verification - top search engine placement

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

The keyword verification tool checks to see if your website has top search engine placement in the major search engines. It checks your search engine ranking in the top three results pages for up to two specific keywords or phrases of your choice. It is important that your website has a top search engine placement because statistics show that most people do not browse beyond three pages when searching.
