

# Lite Yellow Pages Script

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

The Complete Yellow Pages with many build in features you will love to see and like it. The main focus of this yellow pages website is to list all the business details, location, distance travel and much more. You will get inevitably a great stuff with small amount of price. 1. Two modes of website available. One is Flash mode and one is HTML mode. To make better looking website you can always use Flash mode in which all forms will appear in flash. Good bookmarking Script which works on each & every browser. Help file is provided and fully managed by the admin to add as many FAQ's as you want to add to make the website more easily and workable. A feedback is provided so that so users can send emails to the admin about website. All information on front end is fully managed by the admin. New listings can only be added once you register yourself. Registration is fairly easy. No extra forms. Valid email address and registration only works when activated. Admin features a lot than expected
