Magento 2 Store Credit extension looks as an effective payment method for both customers and store owner, also bring more encouragement for customer's purchases. With the utilities of Mageplaza Store Credit, store owner enables customers to add credit by purchase credit product, can be added store credit from their friends transfer or added credit balance by admin and available to receive refund on their store credit when returning products. This module plays as a powerful sales tool that helps to convert refunds into sales. Especially, your Customers just need to charge their credit accounts one time and then use it to purchase many times.
