Magento 2 Store Locator by Amasty

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Let customers quickly find the nearest offline stores with your products by displaying them on a handy Google map in your Magento 2 store. Specify additional information for each store location to maximally streamline shopping process. Import GEO IP data; Display additional info for each store location; Show products available in specific stores; Upload images for any store location; Highlight store clusters with different colors.
