On site payment collection is now a days out dated procedure. People are aware about security and thus need secured payment to be captured by website owners. If you are still collection on site payments, you are losing trust of your customers. Magento 2 Wepay Integration allows you to collect secured and faster payments to provide security and build trust for customers. It accepts payments from all credit cards and bank accounts. Why choose Magecomp's Magento 2 Wepay Integration extension: • You can collect secured and faster payments with Wepay payment gateway. • Rather than collecting payment on site, it redirects customers to Wepay payment gateway and thus build trust for customers. • Allows accepting all credit cards and bank payments.
