

MailGrab SQL

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

MailGrab SQL is a fully automated, MYSQL backed, multiple mailing list affiliate system. It allows you to recruit webmasters to collect opt-in emails for your mailing lists and pay them for each confirmed, unique address. This system also allows you to collect emails for multiple mailing lists at the same time.
