

MCImageManager (.NET)

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

The MCImageManager is a combination of C#, HTML and Javascript, possible to integrate with the MCFileManager. The purpose of the MCImageManager is to be able to preview images through thumbnails and conduct basic file operations on them, such as upload, delete, crop and resize. The perfect tool to integrate with your CMS system, or TinyMCE.
