

# Multi Bit Shift - Flash Multiple File Upload Software

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

Both applets can run on over 90% of computers, using any browser that supports Flash 9. Additionally, both are Section 508 compliant, and are accessibility enabled. The applets text and color schemes are highly customizable, all text can be modified, and the colors can easily be modified with standard CSS. We also offer screencasts detailing the features and installation of both versions. Ruby on Rails plug-ins are provided to speed the installation and deployment, and all the code is thoroughly documented, in comments and externally.
