

# MyList Video Player

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

Dynamically Loads YouTube Playlist - Just specify a YouTube playlist ID and this player will load that playlist. Anytime that playlist is updated on YouTube it will be reflected in this player. Your youtube playlist is displayed in a horizontal row of thumbnail images. Fully Responsive - The MyList Player uses responsive design (CSS media queries) to adapt to fit the screen size. The player will expand to fit the full width of whatever parent element you place it into. Mobile Friendly - The MyList Player has been heavily tested in major iOS and Android phones and tablets. It is touch-friendly and you can scroll the playlist with a swipe as well as tapping the left and right arrows.
