Mobile Number	{value_mobile_number}
Email	{value_email}

myRepono is an online website backup service enabling you to securely backup your web sites and mySQL databases using an online and web-based management system. The myRepono online website backup service allows you to automate the process of backing up your web site. Once you've setup our easy-to-install backup API you simply select which files and mySQL databases you would like to backup and myRepono takes care of the rest, automatically backing up your site as frequently as you require.
