For a developer or project manager building mid-sized web projects that wants to manage database information using HTML forms, NeXTensio is the solution that brings productivity to the process. Unlike other software packages, our product uses a tight integration with Dreamweaver MX, automating code generation and editing. Using NeXTensio you will be able to create a website administration section within minutes! NeXTensio features: --Productivity, even for non-programmers; --CSS Skins; -- Multiple inserts; -- Multiple edits using excel like grid;--Tight database integration; --Automate form creation and editing; -- ColdFusion, ASP and PHP support; --Tight integration with Macromedia Dreamweaver MX; --Multiple database type connection.
