NQcontent is a powerful web content and site management solution for medium and large corporations and an innovative development platform/application framework. What makes this product unique is the fact that it's functionality is not limited to performing the traditional content management tasks. NQcontent comes with a rich set of features like: External Database Integration - Simply specify your table and NQcontent allows you to instantly manage your records as well as secure access to it, Form builder - Build forms or give your client access to build his own forms, WYSIWYG Content Editor, Banner Management, Poll Management, Integrated File Manager, and Web based administration.
