Mobile Number	{value_mobile_number}
Email	{value_email}

The Omnistar Affiliate software is a solution that allows businesses and organizations to setup and manage their own affiliate programs. Using the customizable interface, affiliates can sign up, place a banner or link on their site and then track clicks, sales and impressions brought from these affiliates. Our affiliate software will also allow you to provide your affiliates with multiple promotional methods such as banners, text ads, page peels, light box ads and more. Additional features of the Omnistar Affiliate software include customizable HTML emails, a customizable affiliate registration form and a ten tier management program. Affiliates that sign up for your program will be able to earn commissions based on clicks, sales or impressions. Some of the advanced features of the software include duplicate sale protection, reoccurring sale tracking and advanced reporting. Webmasters can even private label the software, brand the product as their own and resell to make a profit.
