Open Close Store Hours for WooCommerce

Address   {value_address}

Contact Person   {value_contact_person}

Mobile Number   {value_mobile_number}

Email   {value_email}

WooCommerce Store Closing plugin is a comprehensive and the most effective store opening-closing system for WooCommerce. You can set daily business hours and hide the "Add to Cart" button to prevent taking orders in off-hours. Close your webshop for any specific holiday or event. It will stop users from placing orders when your staff is not around to serve. With the exclusion option, you can rule out specific products or categories from the store shutdown so that customers can continue ordering them.
