Paypal Shopping Site 1.1

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This code is a very simple way to make your website a fully functional online shopping site. You can even use credit card payments. Simply fill in a few variables in the code and include it in any file (CF version) or just modify the simple form they way you need it (html version) and you will get a button that takes you to paypal with all the information you need.
