PCDJ Red and Blue is built for complete ease-of-use and organization of your collection of music files (.MP3,.WMA,.WAV and Microsoft DRM files). It contains much of the power and versatility of our award winning flagship product PCDJFX. If you're looking for the new DJ technology from PCDJ but want a something simpler to use, the new Red or Blue VRM will suit you. Simple but powerful. Whether you're a working professional of just beginning to DJ, Red and Blue VRM will give you complete control over the organization of your music, play lists, master tempo and the cueing of the music. (See individual product specs for Red and Blue) These products also have the ability to add in the VRM plug-ins, like our PCDJ KJ Karaoke, that allows the user to expand the software as needed. Please visit our site for more details......
