Phery PHP jQuery AJAX Library

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

It unleashes everything you expect from an AJAX library, with nested responses, merging and unmerging responses, acessing directly the calling element. It's a straightforward and powerful AJAX library with direct integration and mapping of all jQuery functions in PHP, the mapping is extended to custom functions set by $.fn, can create elements just like $('') does, as phery creates a seamless integration with jQuery functions, through AJAX to PHP functions.
