Our PHP B2B Script is beneficial for buyers, sellers and traders for worldwide trade. The idea of B2B Script is to establish a bridge between the trustworthy vendor and potential purchaser. Open Source PHP B2B script is used to connect the small and medium sized buyers and sellers across the world. The sellers can promote their products and the buyers can contact the sellers through your website. You can start your own B2B website like alibaba.com, ec21.com, e800b2b.com etc in a short time with our B2B script. For More Details: http://www.phpscriptsmall.com/product/php-b2b-script/
