

# phpbootstrappagination

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

This class can display pagination links using Twitter Bootstrap CSS styles. It takes as parameters the total number of records in a listing and the limit of records to display per page. The class checks the current number of page and generates an HTML list with links to the paginated list pages using CSS styles of Twitter Bootstrap library.
