Piczard is a Free image manipulation library developed keeping focus on ASP.NET needs. It provides a variety of tools that can help you to manage images in your ASP.NET applications: - An advanced image upload control with a powerful and intuitive image manipulation interface. - PictureTrimmer: The world's most awesome WYSIWYG image cropping tool for ASP.NET. - An expandable set of classes and methods that allows - in an extremely easy way - to programmatically load, process and save images. With Piczard, tasks such as image resizing, watermarking or cropping, can be performed even with a single line of code !
