

Popup Frames

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Display virtually anything you want to show to your site's visitors in a fully customized luxury popup. Make you sure your website's visitors view the popup, because they must click to close it in order to access your website's content. Made based on the proven technology of MooTools 1.2 and MediaBoxAdvanced.

Display up to 10 different popups in a slideshow presentation that opens straight on the page load. The plugin stores in a cookie information about which slides have been showed at first in order to make a rotation and make sure that all the popups are shown.
