<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

PowerFAQ is a powerful custom tag that lets you create a front-end frequently asked questions application without using any JavaScript, or ColdFusion knowledge. There is no installation or server alterations needed to get your application up and running. Your purchase will also come with an additional custom tag called PowerFAQAdmin, which gives you the ability to manage your questions and answers in the back-end. You can add/update/delete questions and answers, you can also enable or disable display online, update ranking, choose a category, etc. using this great tool. PowerFAQ 1.0 and PowerFAQAdmin together give you great front-end and back-end control over your FAQ application. You will be amazed what you will get for your money.
