Product Slider is simply defined as tool to create slide show for particular purposes of sellers. The filtered products are shown in the slide to express that these products are bestsellers, most viewed or recently added and so on to customers. It is simple technique to gain the attentions from clients and to promote some special kinds of products. Product Slider module takes only a few minutes of your time to set up. After applying this extension, you can choose numerous types of options to perform your Magento Store like product type, slide show type and slider position options. All of these steps are done in just one setting up page.
