

Random Banner

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This class can be used to show random image or Flash banners from a list. It can add to a list one or more image or Flash banners given the banner Flash or image URL, and the click destination URL in case of the image banner. The class picks one of the banners randomly and generates the necessary HTML to display the banner in a Web page.
