## Regex Replace - ReReplace.com

Address {value\_address}

Contact Person{value\_contact\_person}Mobile Number{value\_mobile\_number}

{value\_email}

WFFR is a simple yet powerful web based find & replace utility. It can search a text file and highlight matches, independently color backreferences, preview find/replace changes and perform find/replace routines on your text. All search/replace/settings can be saved as a bookmark for reuse. Regular expressions can also be disabled for performing simple highlighting.
