

RImageOrFlashControl

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

ASP.NET RImageOrFlashControl makes it possible to show a picture or a flash on your web-page depending on the file type. If a file extension is swf, then <object> tag corresponding to the flash, or will be rendered on the page. Likewise, using the properties of this control you can establish all the parameters necessary to show your flash.
