Sams Teach Yourself ColdFusion in 21 Days quickly empowers you to create your own dynamic database-driven Web applications using Allaire's ColdFusion. Using client-proven methods, and the success of his popular ColdFusion tutorial for Wired, expert author Charles Mohnike provides you with an understanding of the ColdFusion Server and guides you through the use of the ColdFusion Studio, enabling you to create your own ColdFusion applications quickly and easily. Topics such as installing and configuring the ColdFusion Server, working with the ColdFusion Studio, working with SQL, optimizing your datasource, understanding templates and ColdFusion Markup Language (CFML), using ColdFusion tags, manipulating data, creating e-commerce solutions with ColdFusion, and debugging ColdFusion applications.
