

Scrollable menu links

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

If you have a lot of menu links and not a lot of space, this is the script to turn to. It compacts any content into a predefined area, with the content accessible via scrolling. Browsers other than IE 4+ or NS 4+ will simply see nothing.
