Email	{value_email}

SEF Advance is a component for Joomla! / Mambo CMS which will extend its built-in search engine friendly URL fuctionality and raise it on a higher level. Instead of ordinary Joomla! / Mambo URLs like: http://www.site.com/conte nt/view/1/2/ which don't tell much about your content you will get URLs in SEF form: http://www.site.com/Secti on/Category/Item/ Because the URLs consist of meaningful keywords rather than numbers, SEF Advance will drasticaly increase your search engine positions. For more info visit the SEF advance site. NOW WITH CACHING!
