Simple Javascript File Upload

Address   {value_address}

Contact Person   {value_contact_person}

Mobile Number   {value_mobile_number}

Email   {value_email}

Here is the snippet for file upload using javascript and PHP. We are not using any jQuery, we wrote the code in pure javascript so thst you don't worry abount the version change in jQuery plugin or function deprecated message. We used simple native javascript code and PHP script to upload the file.
