

Simple Web-Database System Application

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This article will show how to connect an Access database to your Active Server Pages using Microsoft FrontPage. This is a beginning-level article with plenty of screen shots to show how to connect via ODBC, generate a SQL query in Access and construct the Active Server Page.
