Smart File Downloader will help you to avoid direct files downloads (hiding real file paths), limit downloads to only some set of file types, and protect from hotlinking. Features: \* customizable allowed file types for download \* predefined mime type settings for following extensions: zip, pdf, doc, xls, ppt, exe, gif, png, jpg, mp3, wav, mpeg, mpg, mpe, mov, avi \* Script can log downloads in plain text file. Log file includes: IP, date/time, filename. Can turn this feature on/off. \* automatic mime type detection (if Mimetype or Fileinfo extension installed on the server)
