So, You Want A Guestbook CGI, Huh?

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This online tutorial guids through the steps to place a guestbook CGI onto your system. This tutorial deals with UNIX servers and UNIX commands for configuration, and assumes that you are able to Telnet into the system, Create directories, and Change directory modifications. Source codes for the guestbook script and sample HTML files are provided on the Web site.
