

Social Content Locker Script

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This script generates simple content locker HTML and JavaScript code which lock the web page contents for few seconds and show Facebook, Twitter and Google like, follow and +1 buttons that force visitors to share your website on social media sites. People can simply copy and paste the generated code in their website in order to implement social content locking functionality.
