

SWF Hit Counter

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This script counts the numbers of visitors of a flash file. A php scripts works in the backend. It uses a flat text file to count the hits. It is very simple and very useful script for complete Flash files. In the new version it also prevent chaching so that the correct hit count is always shown.
