

# Twitter Post Component using cfhttp

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

I thought it would be cool to twitter every new product that has been added to my database. This CFC does it for you. Call the cfc and provide the argument tweet\_txt containing your tweet message.
