

URL Rotator Script

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

A full-featured URL rotator with unlimited URLs, and users. Features: Unlimited URLs; PHP/MySQL based; Secure Admin Control panel; Counts Hits to each URL; Weighted distribution of traffic to your links - you decide which URLs should get more visitors; Unlimited user accounts - you can run the script on your server and give you members their own rotators; Handy backup feature allows the administrator to download a zip backup of the system; Runs on your server so that you don't need to rely on other people's services which are ongoing costs and have restrictions on what content you can rotate.
