vBulletin Private Messages Synchronizer with SugarCRM

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Forums are a good communication option when it comes to direct communication with clients. You can reach them by sending a private message to ask a question or offer your product. If online, they will receive your message immediately. Otherwise, a copy of your message will be sent to their email box. Our module automates Vbulletin forum - SugarCRM synchronization for you to get all Private Messages stored and categorized in your SugarCRM application. It saves sales personnel a good deal of time, as information in SugarCRM is always up-to-date, easily accessible and sorted in the way you like it. With our module, you can easily: *Import your Private Messages (PMs) from a forum (vBulletin platform) *Assign imported private messages to contacts in SugarCRM *Post answers to users' messages right from SugarCRM *Easily navigate messages (Gmail style) Search messages Private Messages Synchronizer is available for SugarCRM v. 5.1; 5.2 /Community Edition/ and vBulletin 3.5; 3.6; 3.7
