

visitors.restrictor ASP.NET script

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Fully customizable ASP.NET script. Restrict frauders and cheaters from visiting your site, stealing your bandwidth and wasting your server resources and save money. Limit single IP, whole IP range, specific regions, countries, continents and more. Keep track of those people in "ignore list" so you can easily change settings with one-click. Variable SQL usage, easy installation.
